4. If, for any reason whatsoever, the general receipts of the Society are reduced or diminished, then the Society does not guarantee full payment of premiums listed in this book.
5. The management will not be responsible for typographical errors in this list, but should any occur, same will be interpreted by the Board of Directors.
6. The Board of Directors reserves the final and absolute right to interpret these rules and regulations and determine all matters, questions, and differences in regard thereto or otherwise arising out of or incident to the fair.
7. Any person knowingly violating any of the rules of this Society will thereby forfeit all rights to any premium that may be awarded to them.

**** ENTRY PROCEDURES AND EXHIBITS ****

1. Livestock must be pre-registered by Thursday, August 10 for stall assignments. Open class non-livestock exhibits should be pre-registered by Saturday, August 12 to allow time for processing entries. **ALL OPEN CLASS ENTRIES MUST BE RECEIVED NO LATER THAN TUESDAY AUGUST 15 AT 6:00 PM.** Entries after that will not be accepted in order to prepare for judging.
2. The Society reserves the right to limit the number of entries if space is unavailable. The management will endeavor to arrange for space for all qualified exhibitors. However, if present accommodations are exhausted, the management reserves the right to close entries at any time.

9. No article may compete for more than one premium, except livestock, which may be included in calf on foot, get of sire, produce of dam, and best 3 head. Individual poultry cannot be used in pen lots. This rule does not bar sweepstakes or special award competition.

**** LIVESTOCK HEALTH REQUIREMENTS ****

Travis Kingley, DVM

Livestock or poultry known by the exhibitor to have an infectious, contagious disease or to have been exposed to an infectious, contagious disease or to be from a quarantined herd or flock may not be entered in the exhibition. Warts and ringworm are considered communicable diseases. Livestock affected by these diseases cannot be exhibited. A statement from a veterinarian that the animal is being treated is not acceptable.

All livestock will be inspected by the official veterinarian on opening day of the exhibition and daily during the exhibition, including poultry and rabbits. The official veterinarian will order immediate removal from exhibition premises of any livestock with symptoms of infectious or communicable diseases. They may not enter a show ring. This includes livestock with warts or ringworm.

In the event that a 4-H or open class exhibitor is asked to remove their animal by the Houston County Ag Society's official veterinarian for health reasons, they must do so within six hours. The vet will mark the affected animal with a marking stick. If the exhibitor fails to comply, they will be subject to the following consequences:

- the individual will lose all premiums, both 4-H and open class.
- the individual will lose any 4-H State Fair trip (livestock and non-livestock) for that year.
- the individual and his/her immediate family will be banned from exhibiting livestock at the Houston County Fair for a period of three years following the year in question.

Non-livestock exhibiting will be permitted for the entire family during the three probationary years.

Any family exhibiting livestock needs to have their animals checked by their own veterinarian (not the Houston County Fair Vet) prior to the fair if the animals are in question for health reasons. If the family veterinarian has a question about any animal, he/she should contact the State Vet/Health Board or the Houston County Fair Vet. Please note that ringworm, warts, etc., can appear even after the family vet has given approval. The decision of the Fair Vet, along with the decision of the superintendent, to remove an animal is final.

All testing must be conducted prior to the exhibition, and a record of the test results on a test chart or Intrastate Health Certificate must accompany the tested animals. Livestock and poultry entered in a petting exhibit are not exempt from the exhibition rules if the animals are from more than one farm or there are other animals at the exhibit.

GENERAL REQUIREMENTS - Livestock and poultry that exhibit symptoms of any infectious or communicable disease, including ringworm and warts, may not be exhibited. All animals must be examined by the official veterinarian on the day they are admitted to the exhibition and at least once daily during the exhibition. All animals imported into Minnesota for exhibition must be accompanied by a certificate of veterinary inspection and meet Board of Animal Health importation requirements.

Official identification : Please note that the following types of identification are not considered official on certificates of veterinary inspection or test records required for exhibition:

- 1) 4-H tags
- 2) Producer tags without a state or USDA assigned premises number and individual animal number preceded by state abbreviation
- 3) Tattoos not registered with either a breed association or state agency

For questions about approved official identification, contact the Minnesota Board of Animal Health at 651-296-2942 or visit www.bah.state.mn.us.

CATTLE- No specific tests or identification are required for cattle from Minnesota.

SHEEP & GOATS- All sheep and goats, including wethers, must be identified with official identification approved for use in the Scrapie eradication program. Official identification includes USDA Scrapie identification tags and tattoos approved by the Board of Animal Health. Sheep and goats within 30 days of giving birth (before or after) cannot be exhibited without prior approval from the Board of Animal Health.

HORSES - All horses must be negative to an official test for Equine Infectious Anemia (EIA) within 12 months prior to the opening date of the exhibition. A test is not required for suckling foals accompanying a negative dam.

SWINE - Swine must be individually identified with an ear tag or herd tattoo.

POULTRY - Poultry, with the exception of pigeons and waterfowl, must be individually identified with a leg or wing band and must have had a negative test for pullorum-typhoid disease conducted within 90 days prior to the opening date of the exhibition or originate directly from parent stock tested and found negative for pullorum-typhoid disease within the

last 12 months. In addition, turkeys must be tested negative or originate directly from parent stock that is tested negative for Salmonella typhimurium, Mycoplasma gallisepticum, and Mycoplasma synoviae. Poultry must be accompanied by a testing or origination certificate approved by the board.

DOGS - Dogs over 6 months of age must have a certificate of rabies vaccination issued by a licensed veterinarian.
All imported animals must be accompanied by a certificate of veterinary inspection and meet the board's importation requirements.

NOTE: SLAUGHTER CLASSES - All cattle, swine and poultry entered in this class, which are kept isolated in a separate building from all other livestock and poultry at the exhibition and which are slaughtered during or immediately following the exhibition, do not require tests or individual identification.

STOP !!! IF YOU HAVE RECENTLY TRAVELED TO A FOREIGN COUNTRY (RETURNING WITHIN THE LAST 2 WEEKS), PLEASE DO NOT ENTER THE BARN AS A PRECAUTION AGAINST SPREADING FOOT & MOUTH DISEASE. THE BARN WILL HAVE SIGNAGE REMINDING PEOPLE OF THE PROPER PRECAUTIONS NECESSARY TO KEEP FROM BRINGING THIS DISEASE TO THE UNITED STATES.
